

## Hidden Message Puzzle Instructions

Find all of the words on the list in the puzzle. Cross out the words as you find them. Then, going from the top left corner of the puzzle and continuing horizontally through each row, circle all of the letters that are not crossed out.

Next, put the letters (in the *exact order that you circled them in*) into the spaces below the word search. When you have put all of the letters in the spaces, you will be able to read the hidden message!
